Energy

EnergieSchweiz (<https://www.suisseenergie.ch/page/fr-ch/a-propos-de-suisseenergie>)

- A national programme, managed by the Federal Office of Energy, active in raising awareness, providing information, advice, training and further education to improve the energy efficiency and promote renewable energies.
- Helpful brochures with daily tips are accessible online, such as:
 - Smart heating: <https://www.energieschweiz.ch/page/de-ch/heizen>
 - Efficient Electronics at home: <https://www.energieschweiz.ch/page/de-ch/neue-broschuere-effiziente-elektronik-im-haushalt>
 - Pleasant living environment: <https://www.energieschweiz.ch/page/de-ch/herbstwaerme>
 - And more: <https://www.energieschweiz.ch/search/de-ch/?s=brosch%C3%BCre>.

Networks related to Sustainability

Basel Wandel (<https://baselwandel.ch/>)

- An online network of local sustainability groups and organisations.

Impact Hub Basel (<https://basel.impacthub.net/en/>)

- A community of organisations working towards the SDGs and supporting social entrepreneurs, sustainable innovators and local organisations with a supportive network, meaningful content and a coworking space.

konsumGLOBAL (<http://www.konsumglobal.ch/>)

- Organises city tours to inform about sustainability.

Nachhaltiger Warenkorb (<https://www.nachhaltiger-warenkorb.de/>)

- Gives advice on how to consume sustainably (clothes, food, etc.).

Umwelt Plattform (<https://umweltplattform.ch/de/basel/>)

- Organises local events and awareness raising campaigns.

Economy

Ecoloc (<https://www.ecoloc.org/>)

- Supports a local economy to make Basel more sustainable. Related to NetzBon, it is the theoretical and informational side of the concept.

NetzBon (<https://www.netzbon.ch/>)

- Related to Ecoloc, it is the practical aspect of the concept: a local currency to support local businesses.

Startups

Solarify (<https://solarify.ch/>)

- Creates solar panel installations and sells single panels to private individuals.

Mobility

Simple Train (<https://www.facebook.com/SimpleTrainTickets/>)

- Cheap train tickets to encourage more sustainable travel. Email: simpletrain@gmx.ch.

Technology

Ecosia (<https://www.ecosia.org/>)

- Tree-planting search engine: each research carried out contributes to the planting of trees.
- https://www.facebook.com/UniBaselonEcosia/?ref=py_c: the Basel branch of this international attempt at encouraging universities and tertiary education institutions to adopt the tree-planting search engine Ecosia as their official search engine

Revento (<https://revento.ch/kontakt/revento-filiale-basel/>)

- Repair and resell technology to help avoiding the waste culture in this sector

UCapture (<https://www.ucapture.com/>)

- Tool helping to estimate, track and offset the carbon footprint when buying online.

Furniture, Tools, Material and Lifestyle Products

Buy Safe Online Shop (<https://buysafe-shop.ch/>)

- initiated by two ETH master students; sells sustainable and environmentally friendly fashion, lifestyle and cosmetic products

Pumpipumpe (<https://www.pumpipumpe.ch/>)

- A sharing community aiming at preventing everyone from buying everything needed. Tools and devices are lent and borrowed amongst the community.

Food

Birsmatthof (<https://www.birsmatthof.ch/>)

- local farm delivering veggie boxes into the city and selling its produces on the market.

Lebensmittelkampagne (<http://www.lebensmittelkampagne.com/>)

- Sells 'native' food produced in Greece by spreading awareness about sustainability in food (packaging, food miles, etc.)

Öpfelchasper (<https://oepfelchasper.ch/de/>)

- Deliver fresh organic fruit and vegetables from a local farm by bike.

Too Good to Go (<https://toogoodtogo.ch/fr-ch>)

- Helps tackling restaurant food waste.

Ugly Fruits (<https://uglyfruits.ch/en/uglyfruits>)

- Sells food boxes with unconventional vegetables and fruits that would otherwise be thrown away.

Waste

Main-Tenir (<http://main-tenir.ch/>)

- Resell the recycled hotel soaps that would otherwise be thrown out.

Radschaft (<https://radschaft.ch/>)

- Collect compost by bike from people who don't have their own in Gundeldingen neighbourhood.

Trash Angels Basel (<https://www.mjabasel.ch/projekte/trashangels>)

- Group of teenagers educating the community on how to dispose of waste sustainably.

Worming urban composting (<https://www.worming.land/>)

- Household worm composter.

Gardening and Green Spaces

Árbol Co(n)razón (<https://arbol-conrazon.ch/>)

- Working at reforestation and conserving tropical forests.

Desert Tree (<https://www.desert-tree.ch/>)

- Sells hand reared exotic plants for 10.-, each of which symbolises the planting of a native tree in the desert of Algeria.

Ökostadt Basel (<https://www.oekostadtbasel.ch/index.html>)

- Aim at introducing sustainability into the city planning and urban spaces.

ProSpecieRara (<https://www.prospecierara.ch/>)

- Support the conservation of 4700 plant types, the diversity within ecosystems and on our plate.

Urban Agriculture (<http://urbanagriculturebasel.ch/>)

- Holds events and teaches how to grow plants indoors or on balconies.

Urban Roots (<https://www.urbanroots.ch/>)

- Sends people seeds and supports them in their ventures to be urban gardeners.

UniGärten (<https://unigaerten.unibas.ch/>)

- The uni's gardening organisation with 3 different Schrebergärten plots in the city where people can exercise their green thumb and even take home their hard-earned vegetable
